I have read this Piedmontese Association of the United States (PAUS) DNA Testing Order Form (the Form) and understand that my submission of samples for testing from animals identified on this form authorizes GeneSeek and IGENITY to automatically distribute test results to PAUS for entry into its database, and authorizes PAUS to include results in performance program and genetic evaluations, publically disclose results and mutually use samples and results in research and future product development. I further agree to indemnify, defend and hold IGENITY, GeneSeek and PAUS harmless from and against any and all claims, caused of action, demands, liabilities or damages resulting from any of the above actions they have pursuant to the authority I have granted them under this paragraph.

Signature of animal owner or agent Date
